

- Install MIDI Deck to your iPad
- Install and run MIDI Deck BETA Server
- Install Serato Scratch Live MIDI mappings
- Create Private Network
- LINK AND PLAY

1. Purchase app from iTunes store
2. Install app on iPad

1. Open file MIDIDeckServer.dmg and drag BETA Server Into Applications folder
2. Open Applications and run MIDI Deck Server

1. Download and install Serato Scratch Live 2.0:<http://serato.com/downloads/scratchlive>
2. Copy MidiDeck's MIDI mapping MIDIDECK1.0.xml file to Serato Scratch Live's MIDI folder:~ user home ~ /Music/ScratchLIVE/MIDI/(MIDIDECK1.0.xml located in the downloaded support.zip folder)(If the file MIDI does not exist, create one, name it MIDI in all caps and drag the .xml file inside)

[illegible]

1. In the MIDI Deck app, select the settings tab in the upper left corner. Find your computer and select.

ENJOY!!!!
